APPROVAL OF THE FINAL PROJECT CLOSEOUT REPORT, NON-TIME CRITICAL
REMOVAL ACTION FOR SOLID WASTE MANAGEMENT UNIT (SWMU) 24,
STATIONARY DEMILITARIZATION FURNACE, NAVAL WEAPONS STATION,
SEAL BEACH, DATED JULY 8, 2003

Dear Ms. Tamashiro:

The Department of Toxic Substances Control (DTSC) has reviewed the subject Report prepared by Foster Wheeler Environmental Corporation, for the Department of Navy, Southwest Division, Naval Facilities Engineering Command. The Report describes the implementation of a Non-Time-Critical Removal Action for SWMU 24. Upon review, DTSC concurs with the Report's findings that the verification sampling results indicated that lead-impacted soils at SWMU24 were removed to concentrations well below the established Target Cleanup Goal level and no further action is recommended.

If you have any questions, please call Ms. Katherine Leibel, Remedial Project Manager at (714) 484-5446.

Sincerely,

Shelia Lowe
Unit Chief
Office of Military Facilities
Southern California Region
